Telephone: (954)638-4040

OBJECTIVE: To work full-time using my experience and skills as Computer Programmer or Web Developer while learning new technologies.

SKILLS

- Proficient in Mainframe and PC computers; DOS, Windows, Word, Access, Databases, SpreadSheets, AutoCAD R12, and other utility programs; and high technology machines such as Sensors, Robots and [PLCs](#).
- Experienced in JSP, Java, HTML, BATCH, QIK, COBOL, BASIC, SQL, VB, C, PHP, SAP ABAP; and trained in UNIX, PASCAL, KAREL, RLL and ASSEMBLY.
- Research and problem solving. - Reliable Customer Service.
- Fluent English & Spanish. - 50+ WPM typing. - Willing to travel

ACHIEVEMENTS

- Developed four complete and secure database workflow Intranet Web applications using JSP, Java, JavaScript, SQL, HTML and XML.
- Using a 4GL in The Leading Hotels, I guided the development of an interface for dozens of telephone reservation agents while creating and troubleshooting six fully automated applications to update the databases of five different airline systems around the world.
- Built and maintained a presence in the Internet with the web sites listed at <http://www.doylet.org/host/domains.html>
- Created three major complete applications: two accounts receivables in COBOL and a COMPUTER MATCHING in Basic, which included research, development, maintenance, input validation and reporting.
- Improved computer operations management through research, experimentation and implementation of unexplored commands, training users, and writing control programs.
- Represented in the 1995 and 1996 editions of [The National Dean's List](#)
- [F&AM](#), [WCM](#) and [PTK](#) member. [HTML](#) & [Spanish](#) Expert. [Kung Fu](#) Black Belt.
